Chair

Expormim Frames High Back Lounge

Rattan is almost unique as a furniture material in that it requires no additional components to function, taking this material, Hayon created a series of frames that come together offering comfort and flexibility.

"FRAMES is a happy new chapter to an old story, the old tale of craft and tradition within a new framework of clever design using a joyous new approach to the material. The nested narrative of the design brings this traditional outdoor furniture inside, adding a layer of glamour to the rustic charm of the material. What was once only a seasonal story can now be told all year round, with this simple yet sophisticated, aesthetic FRAMES has all the properties of a contemporary classic".
